Anmol Goyal

CS Freshman — Computing Systems

Portfolio · Mail ID · Mobile · GitHub · LinkedIn

Summary

- Computer Science freshman at SRM Institute of Science and Technology interested in computer systems, performance-oriented programming, and parallel computing.
  Experienced with C/C++, OpenMP, Arch Linux, Git, and NeoVim, focusing on low-level systems and performance optimization.
  Currently exploring 3D graphics programming, including rasterization and ray tracing, by building rendering systems from scratch.

EDUCATION

- **B.Tech in Computer Science and Engineering** **(2025-2029)**
  SRM Institute of Science and Technology, Kattankulathur

SKILLS

- **Languages**
  C, C++
- **Tools and Environment**
  Git, GitHub, Linux (Arch Linux), NeoVim
- **Conceptual Areas**
  Computer Systems, Memory and Performance Optimization, Parallel Computing, 3D Graphics Programming (Rasterization, Ray Tracing)

PROJECTS

- **OpenMP Matrix Multiplication Benchmark** Github
- Built a C-based matrix multiplication benchmark comparing serial and OpenMP-parallel implementations.
  Applied OpenMP directives to parallelize nested loops across multiple CPU threads.
  Measured execution time to evaluate scalability and performance improvements from parallel computing.

Technical Experience

- Currently building personal projects and open-source repositories focused on systems programming, performance benchmarking, and 3D graphics programming including rasterization and ray tracing.

Declaration

- I hereby declare that the above mentioned information is correct up to my knowledge and I bear the responsibility for the correctness of the above mentioned.
